Line Daters & numberers

Line Daters are available in the manual style up to type size No. 6 (11/16" printing face) and in the self-inking style up to type size No. 3 (5/16" printing face). All models are furnished with wooden handles, deep molded bands of purest natural rubber, and chrome plated steel frames.

Manual Style Daters, used with a separate stamp pad, are the economical answer to a small volume of dating impressions. Choose the self-inking style for speed and convenience in handling a medium to high volume of date stampings.

Year bands on all models contain multiple years and the words REC'D, PAID and FAXED. DATE BANDS CONTAIN 1 THROUGH 0 PLUS AN "X" AND A "•".

Our self-inkers are the heaviest duty. Available in many sizes and configurations, one is sure to meet your needs.

Numberer

selection scale

Figures are shown actual size so you can determine maximum number of bands for a given width. Suppose that you want to stamp 8 interchangeable characters in a line so that the stamped impression is approximately 3" wide. Reading down the 3" line in the scale below, you find that the number 4 size Gothic stamp has 8 characters in that width. Therefore, you should order a JB 4-8. Need a special layout? We can add letter bands (A-M or N-Z) or a custom band in any position to meet your requirements. Ask for details.

*Shaded area indicates sizes and number of bands available on self-inking stamps (bands on No. 3 size conventional self-inking stamps contain 11 characters.) All sizes shown are available as manual stamps.
* No. 4 Self-Inking Stamp is available in BDA Style only.*
